***The Impact of Alcohol and Drug Abuse in the
Workplace***

Presented

by

Joel Brott, Sherburne County Sheriff
&
Rod Barnes, Elk River School District

Abuse of alcohol and other drugs affects many more people than simply those taking them. The presenters will share their first hand knowledge of the wider impact, not only on personal relationships and community public safety, but in the workplace, as well.

Gain insight into local statistics and trends regarding alcohol and drug related law enforcement response calls and crime statistics. Become aware of how an employee's abuse and resulting behaviors can affect team work, conflict management, morale and productivity. Learn practical resources to assist employees with addictions and policy "best practices" to guide employee supervision.
